## How to Find Quality Health Information Online

Are you looking for the most up-to-date information on your health concerns? Join Jack Black, librarian at El Camino Hospital's Health Library and Resource Center, for a free workshop on online consumer health research.

The Health Library and Resource Center is a free community resource open to the public. Assistance is provided by the same professional research librarians and staff who support the physicians and nurses in the Hospital.

**Wednesday, August 25 - 7-8:30pm**
